

XP-8141-Atom

XP-8141-Atom

FEATURES

The image shows the XP-8141-Atom industrial module, a compact, black, rectangular device. It features a variety of ports and connectors on its front panel, including a USB port, a FireWire port, a LAN port, and a CF (CompactFlash) card slot. The module is labeled with the XPAC logo and the model number XP-8141-Atom. It is shown in a close-up view, highlighting its rugged design and connectivity options.
