

Network module with 8 analog inputs Korenix JETI / O 6511

FEATURES

Korenix JETI / O 6511

Network module with 8 x analog inputs

Channels: 8

Resolution: 16 bit

Analog inputs: ± 150 mV, ± 500 mV, ± 1 V, ± 5 V, ± 10 V and ± 20 mA

Optical 2500 VRMS for analog and digital inputs and outputs for the power supply

Magnetic 1500 V from the network interface to the power supply

10/100 Mbit m / RJ45 female connector

Operating temperature: -25°C - 70°C

For DIN rail mounting

Supply: 10 - 30 VDC via terminal block. Max 3.2 W
