

Industrial controller for measuring and controlling the processes. With ethernet and 4G, with data logging, MQTT, IoT

FEATURES

Advanced Controller with logging
With slot for internal I/O expansion module, A/D, D/A, D/I, D/O, relay
Program with simple logic functions - WISE (Web Inside Smart Engine)
Logic functions with IF-THEN-ELSE logic
Supports SNMP, SMTP, FTP, MQTT, Modbus / TCP / RTU and DCON
Ethernet 10/100 / 1000Mbit
Setup via the built-in Web server
1 x RS232 port
2 x RS485 port
Supply voltage: 12 - 48VDC

SPECIFICATIONS

Andet	:	3G MODEM WCDMA 850/900/1900/2100 MHz WCDMA / HSPA+; Download: Max. 14.4Mbps; Upload: Max 5.76Mbps
Forsyning	:	12 til 48 volt DC maks. forbrug 4,5 watt
Netværk	:	10/100/1000Mbit RJ45 stik
Porte	:	COM1: RS232, COM2: RS485, COM3: RS485
Udvidelser	:	Intern I/O udvidelsesbus til 1 stk. udvidelsesmodul
