

ESW8G-DT-UN

8 Ports Gigabit switch 10/100/1000 DIN -40-75° -  
Unmanaged, 12-48VDC, 24VAC

## FEATURES

- Unmanaged 8 ports 10/100/1000Mbit switch
- 1.5Mbits SRAM packet buffer
- IP30 metal case
- DIN rail and wall-mount
- 40 to 75 degrees C operating temperature
- 12 to 48V DC input (power supply is not included)

Danbit A/S Schous plass 1 Oslo, N-0552  
Norway

## SPECIFICATIONS

|               |   |                                                                                                                                                             |
|---------------|---|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Buffer        | : | 1.5Mbits SRAM packet buffer                                                                                                                                 |
| Input         | : | 12~48V DC (strømforsyning er ikke inkluderet)                                                                                                               |
| Kabel         | : | 10/100/1000BASE-T: Cat3, 4, 5, 5e, 6 UTP cable (100 meters, max.)<br>EIA/TIA-568 100-ohm STP (100 meters, max.)                                             |
| Luftfugtighed | : | 5% to 95% (non-condensing)                                                                                                                                  |
| Montering     | : | DIN rail kit and wall-mount                                                                                                                                 |
| Porte         | : | 8 x 10/100/1000BASE-T                                                                                                                                       |
| Standarder    | : | IEEE 802.3 Ethernet, IEEE 802.3u Fast Ethernet, IEEE 802.3ab Gigabit Ethernet, IEEE 802.3x Full-Duplex Flow Control, IEEE 802.3az Energy Efficient Ethernet |
| Strømforbrug  | : | 6.72 watts                                                                                                                                                  |
| Weight        | : | 461g                                                                                                                                                        |
| Dimensioner   | : | 135 x 87 x 32 mm                                                                                                                                            |
