

Gigabit network transient protection (overvoltage in connection with thunderstorm) up to 10/100/1000 Mbit pin 1-8 are protected

FEATURES

- Surge Protection for 10/100 / 1000Mbit network
- Review voltage: 5V / 300mA
- review loss: Less than 0.2dB
- 2 x RJ45 female (in / out)
- Protected Pin: 1 - 8 (data)
- Threshold at 15V
- Max Transient current: 5 - 15k Amp
- Operating temperature: -40 - +70°C
- Moisture: less than 90% RH
- Size: 112 x 38 x 30 mm
- Weight: 150g
- Earth cable of more than 2.5kvmm must be shorter than 1 meter
- Earth resistance must be less than 4 ohms
- Nothing can protect against a direct lightning strike
