

LORA-NODE-I-CNTR

Lora Indoor Node Controller for sensors. Digital input / output. Serial Port RS232 electricity. RS485. 2dBi antenna. Up to 10 km

FEATURES

- LoRaWan transceiver with digital inputs
- LoRaWan transceiver with relay output (SPDT)
- Supporter LoRa Class C Protocol
- Serial Port: RS232 or RS485 (Transparent data)
- Collects data to be transmitted to LoRa-Gateway Controller
- Frequency: 868MHz - Range Up to 10 km
- 1 x Antenna 2dBi - SMA male connector
- Configuration Port: Micro USB
- Operating temperature: -40 - +70°C
- Supply voltage: 5 - 24VDC
- Dim: 79 x 60 x 24 mm
