

## 7" High-Brightness 1000nits, IP64-Rated 10-point multi touch Monitor for Industrial and Outdoor Applications

### FEATURES

- 7" LCD with 10-point capacitive touch
- High brightness of 1000 nits, suitable for outdoor use
- Resolution of 800x480, with a 16:10 aspect ratio and 1000:1 contrast ratio
- HDMI, VGA, AV
- USB for touch functionality
- IP64-rated front panel, ensuring protection against dust and water sprays.
- Aluminum housing for enhanced durability
- Suitable for demanding industrial applications like smart lockers, medical, and production environments
- Operates in temperatures from -20°C to 60°C, with storage temperatures ranging from -30°C to 70°C
- Low power consumption ( $\leq 8.5W$  at 12V)
- Wide input voltage range (12-24V)

**SPECIFICATIONS**

Operating Temp.	:	-20°C to 60°C
Betragningsvinkel	:	140° horizontal / 120° vertical.
Forsyning	:	12~24Vdc
IP-Tæthed	:	65
Kontrast	:	1000:1
Materiale	:	Aluminium
VGA	:	1
Resolution	:	800x480
Display	:	7"
