

AC-DC Converter — 10-28VAC/VDC to 5V Step-Down Module

FEATURES

- Converts 10-28VAC/VDC input to a regulated 5VDC output
- Delivers up to 2A continuous load (10 W output power)
- High efficiency, up to ~97% at optimal load
- Industrial temperature range: -40 °C to +85 °C
- Comprehensive protection features: over-current, short-circuit, thermal shutdown
- Compact size for easy installation in space-restricted applications

SPECIFICATIONS

Ampere	:	5A
Input	:	12-24V DC
Output	:	5V DC
Operating Temperature	:	-40 °C - +85 °C
Mål	:	63x32x18 mm
