

24AC to 24VDC 6A power converter, not galvanically isolated

FEATURES

- AC to DC non-isolated power converter
- Input voltage: 22 - 28VAC
- Output voltage: 24 VDC
- Output current: up to 6Amp
- Efficiency: greater than 92%
- Voltage accuracy: 1%
- Protection: overload, temperature, voltage
- Operating temperature: -40 to +80°C
- Density: IP68
- Weight: 250g
- Dimensions: 74 x 74 x 32 mm
- Flange mounting
- Cable lengths: 13cm
