

AC24-DC24-6A

24AC to 24VDC 6A power converter, not galvanically isolated

FEATURES

AC to DC non-isolated power converter

Input voltage: 22 - 28VAC Output voltage: 24 VDC Output current: up to 6Amp Efficiency: greater than 92% Voltage accuracy: 1%

Protection: overload, temperature, voltage

Operating temperature: -40 to +80°C

Density: IP68 Weight: 250g

Dimensions: 74 x 74 x 32 mm

Flange mounting Cable lengths: 13cm
