

RFID leser 125kHz over nettverket, TCP / UDP. Støtter forskjellige subnett. TCP Server. Leser config SW - 5vdc

FEATURES

- 10/100M Ethernet interface
- TCP Server, UDP, DHCP
- Til 125Khz ID Kort
- Forsyning: 5V DC PSU max 300MA

SPECIFICATIONS

Driftstemperatur	:	Working temperature -15°75°C, Storage temperature -25°85°C
Annen	:	Fast response to HID card, Real-time transmission. Fully support HID and its compatible card
Forsyning	:	5V DC power supply, low power consumption less than 300MA
Kompatibilitet	:	
Netværk	:	Support Network protocol such as TCP Server, TCP Client, UDP, DHCP etc
Rækkevidde	:	Effective distance is larger than 5cm
Stik	:	RJ45 og DC interface
Tilslutning	:	Support multi-to-one visit in LAN. Support internet and transmission between different subnets
Dimensioner	:	100 x 140 x 30mm
